

Job: Node.JS Development position (f/m/x) - Berlin or remote

We are growing our motivated team of software developers. Join us on on ArchiTangle's journey to take distributed storage to the next level.

Requirements:

- 3+ Years of experience in Node.JS development
- Proficiency in consuming RESTful APIs / asynchronous programming
- Good knowledge of Node.js frameworks (MVC, client and server)
- Working Knowledge in authentication / authorization / encryption / data protection

We have 3 dev tests available, each taking a qualified candidate less than two hours.

Please join the challenge now at berlin@architangle.com, including your LinkedIn and Github.
